[Click Here To Register](#)

This training focuses on strengths -- on What's right right about leaders, teams, and individuals. It begins by identifying each person's basic orientation to life and work. Based on this information, it offers powerful learning strategies for greater personal productivity, increased influence with key people, and more effective teamwork.

This training provides pragmatic ways to enhance performance by letting individuals make the most of the strengths they already possess and appreciate the strengths of others, whether operating in day-to-day mode or under stress.

The 2-day workshop encompasses essential Skills:

#### Break the Productivity Barrier
